PROFILE

Aspiring Software Developer and BCA Data Science student with hands-on experience in full-stack development. Familiar with Python, HTML5, CSS3, React.js, JavaScript, ASP.NET Core Web API, C#, SQL Server, and AWS. Interested in developing responsive web applications, building REST APIs, working with databases, and improving software development skills through practical projects.

INTERNSHIP EXPERIENCE

Project Intern – Full Stack | Fidrox Technologies Pvt. Ltd., Bengaluru **January 2026 – May 2026**

- Enhanced web application components using React.js.
- Contributed to a real-world Contract Management System (CMS) by improving UI/UX, table layouts, responsiveness, component styling, and usability. Resolved asynchronous loading and UI flickering issues in CMS.
- Developed and executed 150+ Jest test cases across 4 React components, achieving approximately 90% test coverage.

TECHNICAL SKILLS

HTML

- Knowledge of semantic and non-semantic HTML elements. Understanding of global and element-specific attributes.
- Experience working with tables, forms, audio, video, and multimedia elements.

CSS

- Understanding of selectors, pseudo-classes, pseudo-elements, and combinators.
- Knowledge of the CSS box model, display properties, flexbox, positioning, and layout techniques.

NOTE : Developed static webpages inspired by Knight Bite, Blinkit, Amazon, Biryani By Kilo, Facebook, and Netflix.

JavaScript

- Understanding of functions, arrays, objects, operators, conditions, and loops.
- Knowledge of ES6 features including let, const, arrow functions, and destructuring.
- Experience with DOM manipulation and event handling.

NOTE: Built practice projects such as OTP Generator, Calculator, and Digital Clock.

Python

- Understanding of data types, operators, conditional statements, loops, and functions.
- Understanding of exception handling and file handling.
- Knowledge of lists, tuples, sets, dictionaries, strings, and built-in functions.
- Understanding of OOP concepts including classes, objects, inheritance, encapsulation, polymorphism, and abstraction.

NOTE: Built small projects such as Flight Ticket Booking, Bank Account Management, and Personal Finance Calculator.

EDUCATION

Bachelor of Computer Application - Data Science **2022 - 2026**

Chanakya University, Bengaluru | CGPA – 9.51

PROJECTS

Student Management System **February 2026 – April 2026**

ASP.NET Core Web API | React.js | C# | SQL Server | Entity Framework Core

- Built a full-stack system with CRUD APIs for student records. Applied Entity Framework Core with Repository/Service layers and Dependency Injection.

Containerized Real-Time Chat Application (CloudChat) **November 2025 – December 2025**

React.js |Socket.IO | MongoDB | Docker

- Built a full-stack real-time chat application using React.js, and Socket.IO with support for direct messaging and chat rooms. Implemented MongoDB storage and Docker-based containerization using Docker Compose.

EXTRACURRICULAR ACTIVITIES

- Participated in the NASA International Space App Challenge in October 2025
- Presented on the topic “Bhoota Kola” at the International IKS Conference and received a certificate for participation.
